

KISHORE G

COMPUTER SCIENCE ENGINEER

I am a third-year Computer Science Engineering student seeking an internship role as a Full Stack Developer. My domain interests include web development using the MERN stack, and I'm enthusiastic about building dynamic, responsive, and scalable applications while gaining real-world development experience.

LEADERSHIP

Led a team of classmates in developing five real-time websites for local business owners, handling client communication and project coordination.

Took initiative in guiding design and development efforts to meet client needs.

Served as a coordinator for multiple technical symposiums, managing event planning and execution effectively.

CERTIFICATIONS

Microsoft's Fundamentals of Generative AI [Copilot in bing]

MongoDB: Connecting to DB, Atlas(Basics), CRUD operations.

Fundamentals of Angular [Infosys Springboard]
